O₃

OZONE GENERATOR

REMOVES ALL UNPLEASANT ODOURS

EASY INSTALLATION

LAUNDRY SOFTNESS WITHOUT FABRIC SOFTENER

CONVERTS COLD WATER INTO AN ECOLOGICAL DISINFECTANT

WARRANTY FOR COMMERCIAL USE

► **HYGIENE**

Ozone-enriched water disinfects, eliminates bacteria, neutralizes viruses and removes odours, even in a cold water washing program. This also makes it suitable for disinfecting sensitive laundry.

As an environmentally friendly disinfectant, it kills microbes more effectively than chlorine. Since it decomposes into ordinary oxygen, there is no unwanted residue on clothes and inside of the washing machine.

► **FRAGRANT & SOFT**

Ozone-enriched water removes unpleasant odours, even from mold or smoke.

Ozone enters into the structure of the fabric and makes it soft while reducing static electricity, which results in softer, richer bedding without the need for fabric softener.

► **SAVING**

Using an ozone generator in each cycle, can significantly reduce running costs.

If you are disinfecting with ozonated water, you don't have to use long cycles and high temperatures for thermal disinfection, thus saving time, electricity and water. The result is higher productivity.

The need to use disinfectants in the form of strong chemicals and softeners has been reduced, thus reducing the cost of consumables.

IT IS IDEAL FOR SELF-SERVICE AND SERVICE LAUNDRIES, HEALTH FACILITIES, NURSING HOMES, SPORTS CLUBS AND OTHER COMPANIES THAT NEED ADDITIONAL LAUNDRY DISINFECTION.

BWO³ Technical information

Ozone concentration: from 0,5 to 1 mg/l

Net dimensions (WxDxH): 480x80x240 mm

Gross dimension of package (WxDxH): 530x153x318 mm

Net weight: 3 kg

Gross weight: 4,55 kg

Package contains

BWO³ ozone generator

Wall mount

Mounting screws and dry wall anchors

Power adapter

Water hose
